ID-CARD PRODUCTION KIT

ID-CARD PRODUCTION FULLY INTEGRATED WITH SHIPADMIN SOFTWARE
NETWORK CONNECTED AND ALWAYS READY TO USE.

FEATURES:

- Customized ID-card templates with company logo and ID-photo of personnel
- Creates several card types like crew, passenger and visitor cards
- Cards integrated both with POB and cabin lock systems
- Always ready to be used, fixed mounted camera
- Tcp/ip connection for printer and camera

This package contains everything you need to produce ID-cards; printer, ID-photo camera and photo background. You can produce cards for different categories of personnel. The cards can be used on the gangway security system, mustering system, on cabin locks and for recording meals at the Mess room.

ID-card printer and camera are both connected to software through Tcp/ip.
